The purpose of this document is to remind broadcast station licensees of their equal employment opportunity responsibilities and to provide the licensee, the FCC and the public with information about whether the station is meeting these requirements.

GENERAL POLICY

A broadcast station must provide equal employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

A broadcast station must also encourage applications from qualified minorities and women for hiring and promotion to all types of jobs at the station.

FILING INSTRUCTIONS

Broadcast station licensees are required to afford equal opportunity to all qualified persons and to refrain from discriminating in employment and related benefits on the basis of race, color, national origin, and sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, a license renewal applicant who employs five or more full-time station employees must file a report of its activities to ensure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives, and Hispanics). If minority group representation in the available labor force is less than five percent (in the aggregate), equal employment opportunity (EEO) program information for minority group members need not be filed. However, EEO program information must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant employs fewer than five full-time employees, no equal employment opportunity activity information need be filed.

A copy of this report must be kept in the station's public file. These actions are required to obtain license renewal. Failure to meet these requirements may result in license renewal being delayed or denied. These requirements are contained in Section 73.2080 of the FCC Rules (47 CFR 73.2080), and are authorized by the Communications Act of 1934, as amended.

☐ If your station employs fewer than five full-time employees, check the box at left, complete the certification below, return the form to the FCC, and place a copy in your station's public file. You do not have to complete the rest of the form.

If your station employs five or more full-time employees, you must complete all of this form and follow all instructions.

☒ If minority group representation in the available labor force is less than 5 percent (in the aggregate) and you choose not to file EEO program information for minority groups, check the box at left and complete the rest of this form with only the information for your program directed towards women.

This section is optional:

As an alternative to MSA or county labor force data, you may use other data that more accurately reflect the percentages of women and minorities in the labor force available to your station. If such alternative data are used, that data must be submitted on the table below and an explanation attached as to why they are more appropriate.

Percentage in the Labor Force	Women	Blacks not of Hispanic Origin	Asian or Pacific Islanders	American Indians or Alaskan Natives	Hispanics
	See Exhibit A

VII. COMPLAINTS

You must provide here a brief description of any complaint which has been filed before any body having competent jurisdiction under Federal, State, territorial or local law, alleging unlawful discrimination in the employment practices of the station including the persons involved, the date of filing, the court or agency, the file number (if any), and the disposition or current status of the matter. Examples of such jurisdiction may include the Equal Employment Opportunity Commission, state and local equal opportunity commissions, or other appropriate agencies.

None

VIII. OTHER INFORMATION

You may also describe other information that you believe would allow the FCC to evaluate more completely your efforts in providing equal opportunity in employment at your station. Submission of such information is optional. Among the additional information you may choose to provide are:

Any training programs the station has undertaken that are designed to enable minorities and women to compete in the broadcast employment market including, but not necessarily limited to, on-the-job training and assistance to students, schools or colleges.

Most people we can hire require a period of training. Most of the people we have were trained in the station on the job.

Any problems the station has experienced in assuring equal employment opportunity, or attracting qualified minority and women candidates for employment or promotion. Few minorities here. Many women don't the kind of work we offer.

Any efforts the station has undertaken or will undertake to promote equal opportunity in its employment and to encourage applications from minorities and women. Most of the people hired come through radio schools or through the employment office. These are asked by the station to submit to us names of qualified candidates, men and women, regardless of race, color, creed or national origin. We make our choice on the basis of qualification. Most require a training period. This is an agricultural and energy area. It is depressed. The station does not have as large a staff as it once did.

Exhibit A
Broadcast Equal Employment
Opportunity Program Report

Sidney, Montana and Richland County are not in an M.A.S.. The information on the labor force available to us is old. It may or may not reflect the situation, since the oil exploration slowed down. It may be close to existing conditions since much of the labor force connected with oil came in with oil and a lot of it left with it. The labor force in Richland County is stated at 5,572 people. It does not break this down as to men and women.
